VHJ-T Series Filter Cartridge Welding Fume Extractor

CONTACT US >

VHJ-T series are high efficient welding fume extractors with high efficiency filter cartridge, very ideal for the fume and dust disposal in the welding place or other

Parameters of VHJ-T Series Filter Cartridge Welding Fume Extractor

Model	VHJ-110T/VHJ-110TS
Voltage (V/Hz)	380V/50Hz
Power (KW) / (HP)	1.1 / 1.5
Max negative pressure (Pa)/(mmH2O)	2180/222
Max Air Flow (m3/h) / (CFM)	1500 / 882
Noise dB(A)	75±2
Inlet diameter (mm) / (in)	1*Ø 150 / 1*201
Filtering area(m2)/(ft2)	8 / 86
Filter rating	> 99%
Dimensions (mm) / (in)	580*620*1150 / 23*24*45
Net weight(kg)/(lb.)	105 / 231

Features of VHJ-T Series Filter Cartridge Welding Fume Extractor

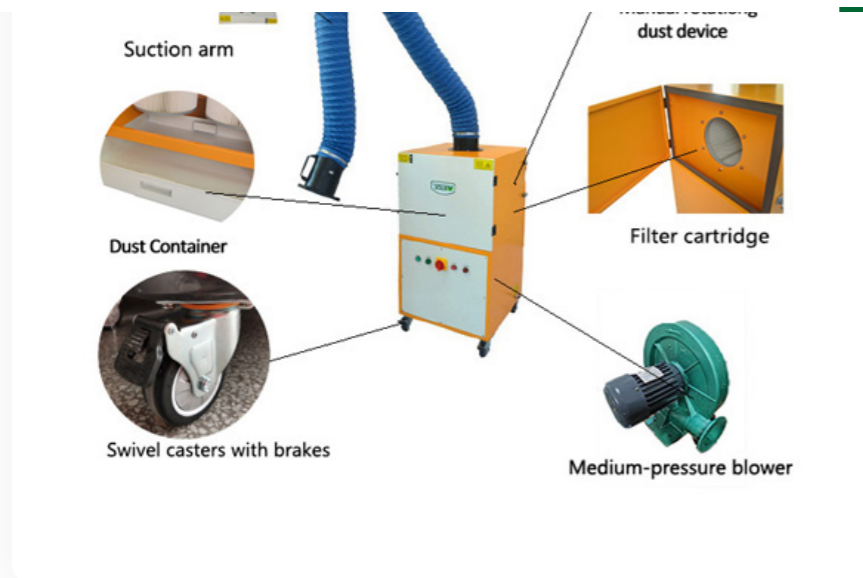

Industry-leading filtration efficiency is 99.9% at 0.3 Microns with HEPA PTFE coated filter cartridge.

The medium pressure blower and excellent metal plate technology ensures long-lasting durability.

The Compact and portable product features a convenient 360degree rotation suction arm for unlimited positioning.

Quick release system for taking out the collection box.

Detail of VHJ-T Series Filter Cartridge Welding Fume Extractor

Applications of VHJ-T Series Filter Cartridge Welding Fume Extractor

Welding (manual arc welding; gas shielded arc welding; argon arc welding, etc.) cutting, grinding, and other smoke purification fields.
